

The custom-made Tic Tac Toe game and Stopwatch widgets are valuable additions to a planner app for several reasons.

The Tic Tac Toe game provides a fun and engaging activity that can help users take a break from their tasks and relax. It serves as a mental diversion and promotes cognitive skills such as strategic thinking and problem-solving. Playing Tic Tac Toe can provide a refreshing break during work or study sessions, enhancing productivity and focus when users return to their tasks.

The Stopwatch widget is a practical tool for time management and tracking activities. Users can utilize the stopwatch to measure the duration of tasks, meetings, or breaks. It allows users to precisely measure time, helping them improve their time management skills and optimize their productivity. The Stopwatch widget can be particularly useful for users who need to track time-sensitive activities or maintain a structured schedule.

To use the Tic Tac Toe game, users can simply click on the cells of the game board to make their moves. The game will provide feedback on the current state and display the winner or a draw when the game concludes. Users can reset the game to play again.

To use the Stopwatch widget, users can click the "Start" button to initiate the stopwatch. The timer will begin counting up. Users can click the "Stop" button to pause the stopwatch and resume it by clicking the "Start" button again. The "Reset" button can be used to reset the stopwatch to zero. The Stopwatch widget allows users to accurately measure elapsed time for various purposes.

Overall, these custom-made widgets provide entertainment, relaxation, and practical functionality, making them appropriate additions to a planner app.
